

Features

- Input 12V DC
- Max. 48W output
- Cooling and Heating function
- Compact size

The ***Demand 3008*** is a high performance temperature control module. With its 12 volts DC input, it is ideal for systems which temperature is controlled efficiently.

Specifications

- Input : 12VDC
- Output #1 : 12VDC cooling fan (Max. x 2 EA), above 35 degree C / ON, below 30 degree C / OFF
- Output #2 : 12VDC heater (Max. x 2EA @4A), below 0 degree C / ON, above 3 degree C / OFF
- Sensor controller
- Dimension : 50(W) x 30(L) x 2(H) mm
- LED
